

# Friends of the Melton Botanic Garden – National Eucalypt Day Guided Walking Tour 10am Tues 23 Mar 2021

To celebrate National Eucalypt Day take a guided walking tour through the 3ha Dryland Eucalyptus Arboretum at the Melton Botanic Garden. These Eucalypts are from regions in Australia with 450mm or less of rainfall. These Eucalypts tolerate a dry climate and low water conditions. Many are small and suitable for growing in pots or small gardens. You will be amazed by what you discover about Eucalypts on this tour. The 100 plus species of Eucalypts are a Nationally Registered Collection with Plant Trust. Eucalypts will be on sale at the Nursery. The walk is about 90 minutes. Due COVID please bring your own water and refreshments.

**WHEN:** Tuesday 23 March 2021 – **Due to COVID you must book your place**
